DOM **LE**

Web / App Developer

About Me

I am a web-application developer and most of my jobs were written on React and MERN stack (React, Nodejs, Express and MongoDB). Currently I am learning and working on my own project written in React / Reactstrap and ASP.Net / C#.

Contact

- Github: www.github.com/dom119

My Portfolio:

https://dom119.github.io/portfolio_2.0

- Email: quydung119@gmail.com

- Mobile: 0450 768 659

My Main Skills

- CSS / SASS

- Bootstrap / Materialize / Semantic UI

- JavaScript / ES6 / TypeScript

- React / Redux

- Nodejs / Express

- MySQL / MongoDB

Skills I am learning…

- C# / ASP.net

- Angular

Main Projects

(Please visit my portfolio for more details)

React

- Github Finder
  https://dom119.github.io/React-Github-Finder/
  - Users can search Github profile / repositories by Github username through Github API
  - Techs: React / React Hooks / Context API / react-router-dom / Axios
- Caro – 2 players: https://dom119.github.io/React-Caro-Game/
- Todo List: https://dom119.github.io/React-To-Do/

MERN Stack

- Contact Keeper
  https://react-contact-keeper-dom119.herokuapp.com/login
  - Users can register and login by their username
  - Users then can create / manage / edit / delete their contacts
  - Front-End Techs: React / Redux / bcryptjs / jsonwebtoken / react-moment / config / express / express-validator / mongoose / request / concurrently / nodemon / Postman (testing) / Heroku (hosting)
  - Back-End Techs:
- Mini Social Network
  https://react-social-network-dom119.herokuapp.com/
  - Users can register and login by their username
  - User can create their profiles / check others people profiles
  - Techs: same as the tech stack of "Contact Keeper"

JavaScript mini projects

- Meal finder: https://dom119.github.io/JavaScript-Meal-API/
- Breaking ball game: https://dom119.github.io/JavaScript-Breaking-Game/
- Custom song player: https://dom119.github.io/JavaScript-Music-Player/
- Text to Speech: https://dom119.github.io/JavaScript-Speech-By-Text/
